## Residents of Rothesay on Municipal Wastewater System

We are reminding residents, especially at this time to ***THINK BEFORE YOU FLUSH.***

Non flushable items include: hygiene wipes, baby wipes, napkins and paper towels. Only things which should be flushed are human waste and toilet paper. Everything else should be disposed of in the regular garbage.

Non-flushable items deposited in the toilet and grease dumped in the sink is the leading cause of blockages in homeowners plumbing systems and municipal wastewater collection systems.

Despite claims on wipe packaging that they are flushable, they are not. They cause a tremendous amount of resources to be used and can cause a tremendous amount of damage through sewer backups!

Thank you for your Cooperation

Rothesay Utilities Department.
