

# HOLIDAY BEST PRACTICES

## GARBAGE / RECYCLING / COMPOST

Wondering how to sort your Christmas garbage, recycling, and compost?

Here are our 5 best practices when it comes to Christmas garbage, recycling, and compost collection.

1. **Wrapping Paper:** Wrapping paper goes in the garbage not with your recycling.
2. **Batteries:** Never put batteries in the garbage. Tape the ends and recycle here: [www.call2recycle.ca/new-brunswick/](http://www.call2recycle.ca/new-brunswick/)
3. **Cardboard:** Flatten extra or large boxes together and bundle with twine. Any cardboard longer than 3 feet must be cut down in size.
4. **Natural Trees:** Christmas Trees will not be collected in garbage or compost pick up. Rothesay, in cooperation with Urban Organics, is working to promote composting by diverting Christmas Trees from the Regional Landfill.  
For information about the yearly Christmas Tree Drop Off, please visit:  
[www.rothesay.ca/christmas-tree-drop-off/](http://www.rothesay.ca/christmas-tree-drop-off/)
5. **Christmas Day Collection:** The only Holiday that FERO does NOT do collection is on Christmas Day (December 25th). If your waste collection is on December 25th, information on when your collection will take place instead will be on the Rothesay website and Facebook page.

**Tip:** Never miss another garbage/compost/recycling collection day.

Download the APP or sign up for collection reminders on the Fundy Region Solid Waste website to be directly notified of any changes in collection:
