

# Wastewater Treatment Facility Upgrade Project

Rothestay, NB

**Rothestay ("the Town") has been approved for financial support under Infrastructure Canada's (INFC) Investing in Canada Infrastructure Program (ICIP) to upgrade its wastewater treatment facilities.**

- The Town is proposing to upgrade its lagoon-based wastewater treatment system to a new mechanical wastewater treatment facility (WWTF) to be constructed at the site of the existing Fairvale Lagoon, along the east side of the Kennebecasis River.
- The Town has retained **Dillon Consulting Limited** in partnership with **Jacobs Engineering Group Inc.** for the design of the new WWTF.
- ▶ • For more details on the proposed project, including the project site information, and details on the ongoing environmental impact assessment, please watch the **informational video** that can be found on Rothestay's website using the QR code below.
